K O H O

NATIONAL BANK

TransferWise

EQ Bank

QUESTRADE

Our mission

Democratize financial data

What we do

“With just a few steps, our customers can authenticate themselves and connect their bank accounts for payment within a matter of seconds.”

Andrew Boyajian,
Head of North American Banking

 TransferWise

TransferWise delivers instant and convenient money transfers (EFT). Here's how Flinks helps make it happen.

[Read the case study →](#)

Program Overview

- 4 to 8 internship opportunities in Software Engineering
- Only full-time positions available
- Starting date: Sept. 6, 2021

What we're looking for

- 👉 Strong culture fit
- 💪 Solid understanding of our mission
- 👊 Determination and ability to move the yardsticks

Role

As a Software Engineer Intern, you have the opportunity to build product prototypes from scratch, work on Flinks Connectors that links hundreds of libraries and SaaS, in addition to developing various internal tools and automation projects.

Main responsibilities

- Propose solutions and strategies for business challenges.
- Work closely with top-class engineers and product development teams.
- Build connectors using high-end technologies such as C#, Java, Ruby, Php, etc.
- Explore the start-up world as its best and grow your entrepreneurial skills

What does it takes to get in Flinks?

Solve our coding challenge and you'll move on to the next stage!

Why you should apply

1. Work on one of a kind Developer Community
2. Develop unique Flinks connectors to link hundreds of libraries and SaaS
3. Build a new prototype application from scratch

Summer 2020 intern testimonial: "I gained a lot of experience working with new technologies, learning on my own, solving errors which enhanced my skills and knowledge about these technologies" - Omar A.

 4 out of 8 interns were hired after the summer 2020 internship, and 7 out of 8 of the following internships got either hired or renewed.

There's limited seating this Fall, apply today!

Please send your application at students@flinks.io or apply on your university's career website.
