

Tech Talk

Arnab Choudhury
Senior Software Engineer
Xbox

Thursday | Nov 7th | 7:30pm-8:30pm

Festival Room - SCH

Arnab is a senior software engineer in the Platform engineering team at Xbox. He was the primary developer for the Netflix 2010 application for Xbox. After that, he has spent time working on various projects such as the Kinect experience for Hulu, Video Kinect and for the past few years, he has been working on the Browser team for Xbox where he has been responsible for various features such as the cursor, zoom, pan, text entry, etc.

Arnab will be talking about the hard work that went into creating a web browser for the Xbox 360. He will be talking about the application development model for the Xbox 360, and the unique challenges that went into creating a browser for the 360. Come prepared for a deep dive into IE9 on the Xbox 360.
