DISCOVER MORE

Amazing ideas and innovations come from students just like you. Now it's your turn.

Imagine Cup 2014 invites students around the world to use creativity and passion to create applications, games and integrated solutions that can change the way people live, work and play.

This year, our proud national sponsor Intel will award each member of the three winning Canadian teams with **one of the latest 2-in-1 touch-enabled PCs**. In the past 10 years, Intel and the Intel Foundation have invested more than \$1 billion, and Intel employees have donated close to 3 million volunteer hours, toward improving education in more than 60 countries.

One of the teams will also win a trip to the Microsoft headquarters in Seattle, Washington for the Imagine Cup World Finals, to compete for the coveted Imagine Cup trophy and **\$50,000** grand prize.

Wonder if a Canadian team can make a splash?

Just ask [Team Sano from the University of Calgary](#). At the Imagine Cup 2013 Worldwide Finals, they took home the [KFC Russia award](#). Their project will be featured at the Kentucky Fried Chicken flagship store in Moscow and they received a \$10,000 cash prize.

This year's major competitions

Games

Great games come from anywhere, and people play them everywhere. Build one and you could win big!

Innovation

We're looking to see what amazing things you can do with Microsoft technology.

World Citizenship

This category asks what you can do to make the world a better place through technology.
